

GET IT RIGHT

# specification guide

so how does it get from the farm to your project?

## URBAN WOODS COMPANY

questions & answers

### SPEC IT RIGHT

#### **how do we specify the selected material?**

indicate the name of the material as listed on the sample on the construction documents; see the spec card for each product for available dimensions

**how do we ensure each piece has the same thickness?** all products are milled to uniform thickness, 3/8" or 5/8" depending on the material

#### **what information should be provided to the contractor for the purchase of material?**

in the construction documents, please list Urban Woods Company, 214-954-7030, as well as the name of the company contact if applicable

#### **what else do I need to know?**

we highly recommend you review our installation guide for information on our suggested substrate and installation techniques as well as our pre-applied eco-friendly finish
